RE: Vinicius da Silva CGO 2026 Artifact Reviewer

To Whom It May Concern,

My name is Olivia Hsu, and I served as the Artifact Evaluation Co-Chair for the IEEE/ACM International Symposium on Code Generation and Optimization for 2026 (CGO 2026) along with Jackson Woodruff and Chris Cummins. More information on the artifact evaluation process for CGO 2026 can be found at the following: <https://2026.cgo.org/track/cgo-2026-artifact-evaluation>.

This letter acknowledges that Vinicius da Silva served on the CGO 2026 Artifact Evaluation Committee as a member (Reviewer). Vinicius successfully reviewed **four** artifacts.

Vinicius went above and beyond in their role. Their reviews were extremely detailed and demonstrated his effort and willingness to dive into the artifact code. They completed reviews early and volunteered to take on additional assignments, completing those in a tight timeline as well. Vinicius was an outstanding member of the artifact committee, and I would recommend them in future service opportunities.

Please do not hesitate to contact me should you have any questions regarding the above.

Very truly yours,

A handwritten signature in black ink, appearing to read "weiyahsu".
